Profile summary	P. 122
Full scale node points	P. 134
Numerical index	P. 140

Care and maintenance

■ Profiles

Aluminium is an excellent material, nonetheless certain precautions should be taken to ensure maximum longevity. TECHNAL products should be periodically maintained and their use should be in accordance with specified aims.

ADAL (association for the development of anodized and painted aluminium) recommendations should be followed.

When the environment contains no aggressive elements, as is generally the case in rural or low-density urban areas, cleaning should generally be carried out annually, but with frequency variations according to environmental conditions. Regularly maintained surfaces can be sponge-washed using water and neutral detergent. This may be carried out at the same time as window cleaning.

Do not use abrasive products.

■ Glass

Cleaning should be carried out using water only or with neutral detergents. Avoid the use of tools likely to scratch the glass. During maintenance, care should be taken to avoid damage leading to tearing of SSG silicone sealant bonding or weathering barriers. Some special glazing requires specific maintenance which should be specified by the glass supplier.

■ Drainage

The various rebates, gutters, and rails should be kept clean and free from obstructions to ensure proper movement of leaves and drainage of water ingress. Drainage, guttering and pressure balancing openings should also be kept clean and free from obstruction.

■ Ventilation

Air inlets on joinery or façades should be cleaned with great regularity. Maintenance consists chiefly of removing dust and ensuring vents are kept free from obstructions. Satisfactory building hygrometry is directly related to proper maintenance of these air inlets.

■ Hardware

Moving parts should be checked, adjusted, and lubricated at least once a year. Particular attention should be paid to screw tightening. In the case of intensive use, maintenance should be suitably scheduled to ensure joinery remains in good condition and meets safety standards.

All non-plastic mechanisms should be lubricated with oil or resin- and acid-free grease. Any damaged parts should be replaced.

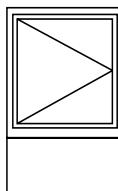

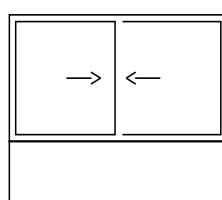

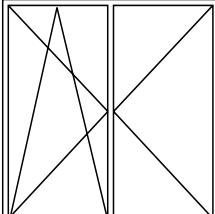

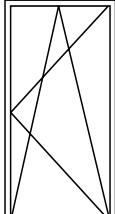

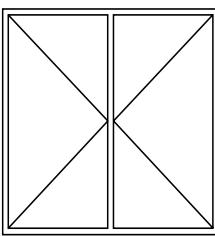

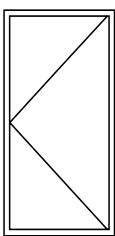

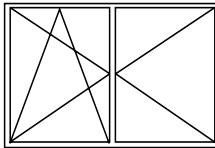

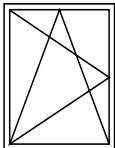

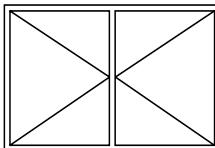

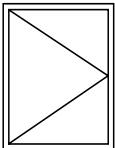

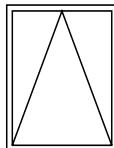

Casement windows: (tilt-and-turn, in-opening, top-hung, horizontal-pivot and vertical-pivot windows). All hinge hardware moving parts (except braking systems) and locking points should be lubricated.

FX product overview

Product overview

OUTER FRAME

- 2-chamber 52 mm module profiles
- Mitre-cut assembly using self-locating crimp or pin corner cleats to join cut sections
- Flush rebate bracket
- Infill volumes identical to opening lights from 5 – 35 mm.
- Marine quality EPDM wraparound gaskets with reduced flashing
- Square or rounded mitre-cut glazing beads
- Drainage concealed in outer frame groove
- Concealed drainage option for bottom or top fixed light transoms using patented drainage spouts
- Grooveless outer frame option

OPENING FRAME

- 2-chamber, 60 mm module profiles, flush with outside of outer frame for patio doors.
- Mitre-cut assembly using self-locating crimp or pin corner cleats to join cut sections
- Support bracket in external tubing
- Flush rebate bracket
- Infill volumes identical to those for fixed lights from 5 – 35 mm.
- Marine quality EPDM wraparound gaskets with reduced flashing
- Square or rounded mitre-cut glazing beads
- Drainage via concealed oblong apertures
- Aluminium plugs for 2-leaf windows in identical colour to profiles
- Rounded central rebate. Identical window and patio door opening frames.
- Locking patio door opening frame option.

ACCESSORIES

- Aluminium or zamak accessories
- Adjustable aluminium hinges with polyamide bushings and stainless shafts
- Tilt-and-turn hardware for 90kg weight with 130kg option. Identical appearance for tilt-and-turn and in-opening hardware on inside for 2-leaf frames.
- TECHNAL® designed handle and latch
- Stainless screws
- 1- or 3-point locking for patio doors with rods in rebate
- Bottom-hung in-opening handle 'SF' option for tilt-first T/T version
- Square-shaft handle option with embedded espagnolette and 43mm escutcheon

APPLICATIONS

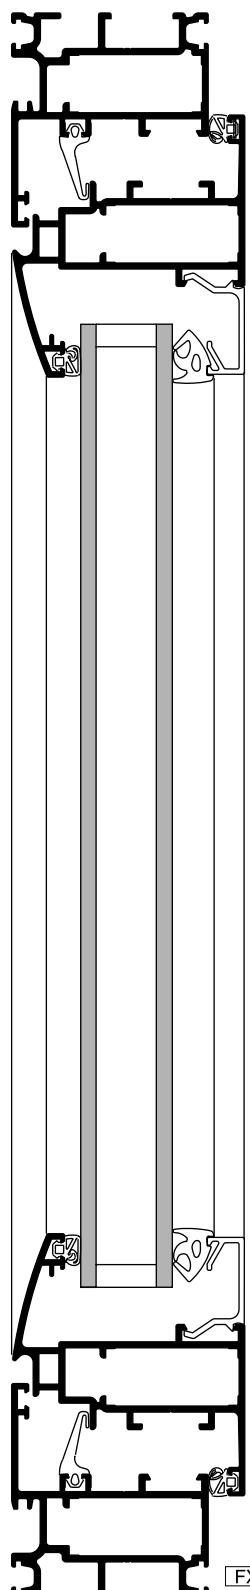

- Fixed frame
- In-opening, 1 and 2-leaf window and patio-door
- Tilt-and-turn 1 and 2-leaf window and patio-door
- Bottom-hung window
- 1 and 2-leaf locking patio door
- 1-leaf window on bottom fixed light composite frame

INSTALLATION

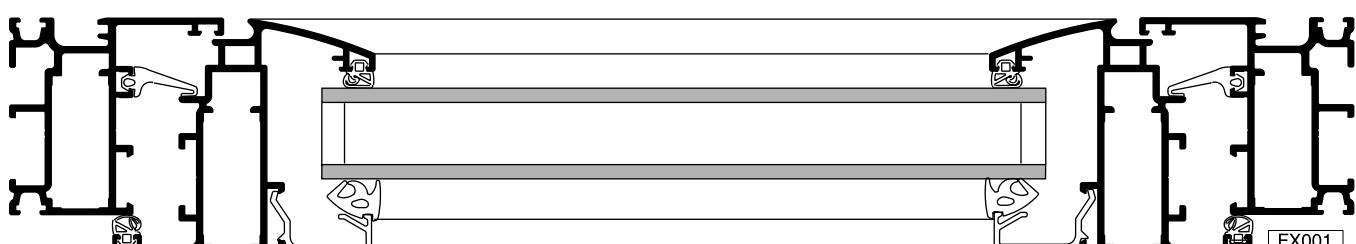

- Using jackscrews
- Using fixing lugs

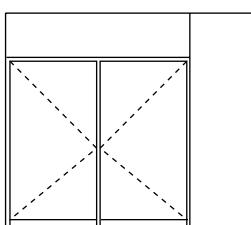

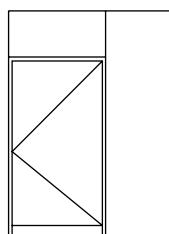

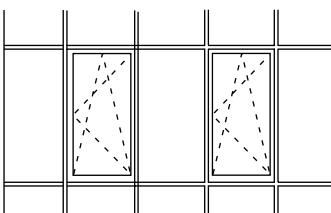

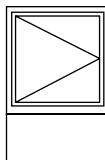

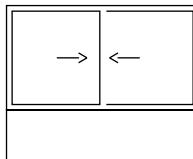

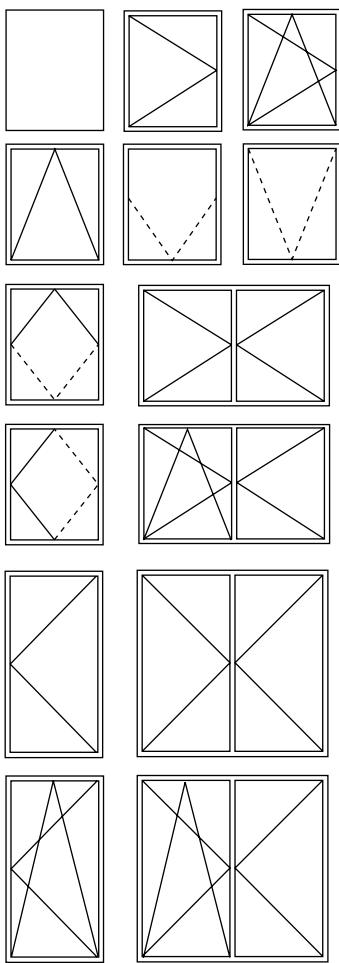

Vertical section scale 1/2

Horizontal section scale 1/2

FXi product overview

Product overview

OUTER FRAME

- 3-chamber, thermal-break, 52 mm-module tubular profiles
- Mitre-cut assembly using self-locating crimp or pin corner cleats to join cut sections
- Flush rebate bracket
- Infill volumes identical to those for fixed lights from 14 – 35 mm.
- Marine quality EPDM wraparound gaskets with reduced flashing
- Square or rounded mitre-cut glazing beads
- Drainage via oblong apertures protected by storm deflectors
- Drainage concealed in outer frame groove.
- Options:**
- Drainage concealed in top or bottom fixed light transom using patented drainage spouts
- Subframe outer frame
- Outer frame with integrated architrave
- Grooveless outer frame

OPENING FRAME

- 3-chamber, thermal-break, 60 mm-module tubular profiles flush with outer frame on outside
- Mitre-cut assembly using self-locating crimp or pin corner cleats to join cut sections
- Support bracket in external tubing
- Flush rebate bracket
- Infill volumes identical to opening lights from 14 – 35 mm.
- Marine quality EPDM wraparound gaskets with reduced flashing
- Square or rounded mitre-cut glazing beads
- Drainage via concealed oblong apertures
- Aluminium plugs for 2-leaf windows in identical colour to profiles
- Rounded central rebate. Identical window and patio door opening frames.
- Options :**
- ECLAT type rounded central rebate with centred handle and reduced 115mm sight line
- Locking opening frame for patio door

ACCESSORIES

- Aluminium or zamak accessories
- Adjustable aluminium hinges with polyamide bushings and stainless shafts
- Tilt-and-turn hardware for 90kg weight with 130kg option. Identical appearance for tilt-and-turn and in-opening hardware on inside for 2-leaf frames.
- TECHNAL® designed handle and latch
- Stainless screws
- 1- or 3-point locking for patio doors with rods in rebate
- Bottom-hung in-opening handle 'SF' option for tilt-first T/T version
- Square-shaft handle option with embedded espagnolette and 43mm escutcheon

APPLICATIONS

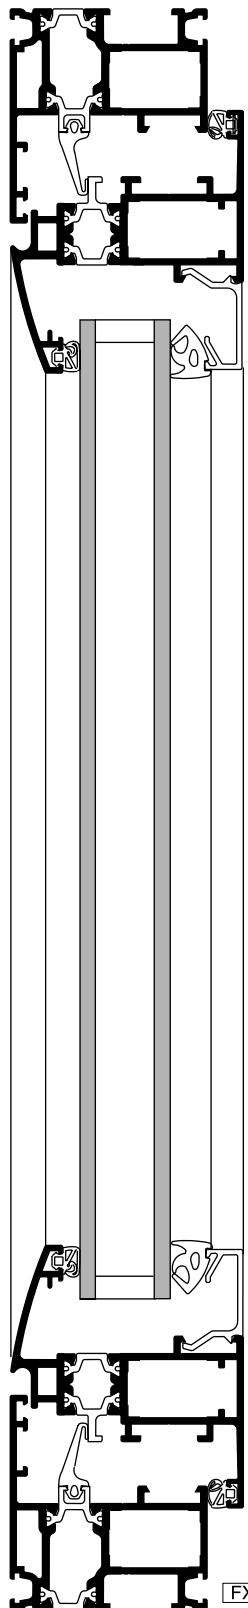

- Fixed frame
- In-opening, 1 and 2-leaf window and patio-door
- Tilt-and-turn 1 and 2-leaf window and patio-door
- Bottom-hung window
- Horizontal-pivot window
- Vertical-pivot window
- Top-hung window
- Top-hung window on butt hinges
- 1 and 2-leaf locking patio door
- ECLAT version window and patio-door
- 1 leaf window on bottom fixed light composite frame
- FXi composites
- GXi series sliding frame composites
- PXi series integration
- MX series integration

INSTALLATION

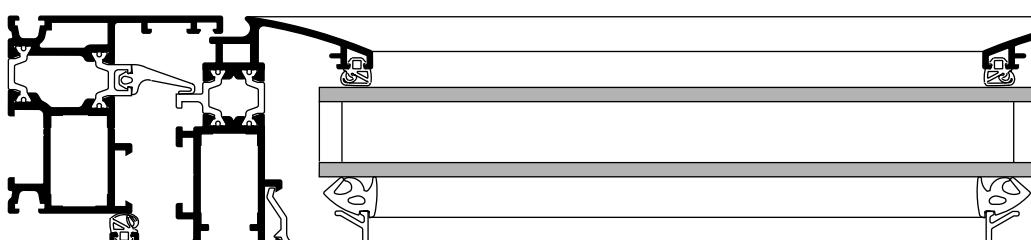

- Using jackscrews
- Using fixing lugs specially designed to avoid thermal bridges
- Flashing for additional 80-160 mm linings
- Outer frame with integrated subframe for 100 mm lining
- Single-piece inside sill for 100 – 120 mm offset sill installation

Vertical section scale 1/2

Horizontal section scale 1/2

Transom concealed drainage

NB: Intermediate transom can be drained in standard fashion (visible deflector 1472).

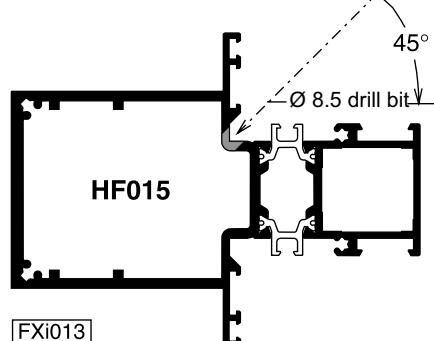

Note: if there is an opening frame above the intermediate transom, allow at least 3 CF003 drainage spouts

Seal fully using W118 silicone sealant in the groove and rear face of the spout

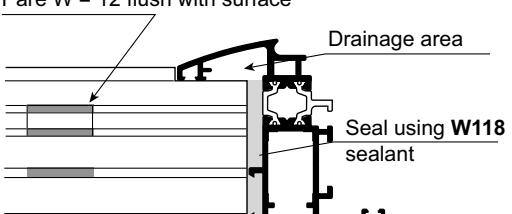

Intermediate opening frame transom

Drill 1 Ø 8.5 hole (using jig OF603) 100 mm from each transom end + 1 additional hole for each additional 0.5 m length if W > 1 m. Allow at least 3 holes if there is an opening frame above the transom.

Tool OG001
Pare W = 12 flush with surface

1 drainage at each end
Allow 1 additional drainage in transom centre if rebate is > 1 m long and use spout CF003 in this case.

■ Driver system selection

- 1 – Select espagnolette or handle (qty: 1)
2 – Select relevant driver

Driver	1-bolt espagnolette		Square shaft handle
	Standard KF037	Keyed KF038	Standard KF039
Espagnolette			
Embedded espagnolette KF036			1
Driver T/T KF028	1	1	

■ Additional locking point selection if leaf height $H \geq 1300$ mm

Select additional locking point by driver

Driver Additional point	KF028 T/T	or	Embedded espagnolette KF036
Additional point KF021 or Additional roller bolt KF048	Option: 1 instead of locking point on driver		1 or 1
T/T complement large height/width KF031	1		1

For all T/T frames:

- W>1300 in private premises
- In public places

To avoid any deliberate or accidental misuse of the fool-proof mechanism leading to the opening frame feathering, the following installations are strongly recommended:

- KF025 lock on standard versions
- KF049 keyed espagnolette on SF versions

Hardware FXi

ECLAT version T/T hardware

■ ACCESSORY selection

Accessories for standard T/T window and patio door

Ref.	Descriptions	2 leaves
KF001 or KF002	T/T hardware 90 kgs (if leaf \leq 90 kg) T/T hardware 130 kgs (if leaf $>$ 90 kg and \leq 130 kg)	1 1
KF004	ECLAT/SF bearing element	1
KF005 or KF006	Friction stay < 600 (if $W1 \leq 650$ mm) Friction stay > 600 mm (if $W1 \geq 600$ mm)	1 1
KF011	Mid point (si $H \geq 1300$ mm)	1
KF018	Sash bolt ECLAT	1
KF032	Outsize T/T complement ECLAT (si $H \geq 1300$ mm et si $W \geq 700$ mm)	1
KF033	T/T hinge	1

■ Driver system selection

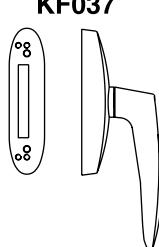

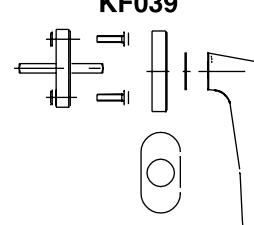

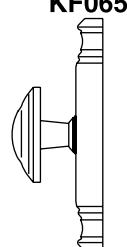

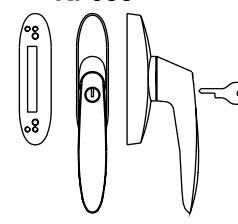

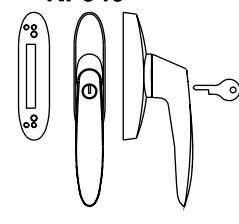

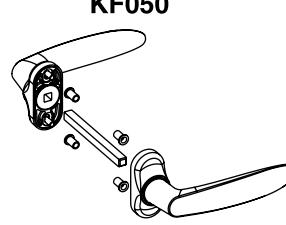

1-bolt espagnolette		
Driver	Standard KF037	Keyed KF038
Driver T/T ECLAT KF041	1	1

For all T/T frames:

- $W > 1300$ in private premises
 - In public places
- to avoid any deliberate or accidental misuse of the fool-proof mechanism leading to the opening frame feathering, the following installations are strongly recommended **KF025** lock

Hardware FX - FXi

Select espagnolette and handle

In-opening T/T	 KF037 Espagnolette door	 KF039 Square shaft espagnolette	 KF065 Renovation espagnolette
	 KF038 Pass-keyed locking espagnolette	 KF049 Pass-keyed locking espagnolette SF	
Locking patio door	 KF050 Door handle		

Hardware FX - FXi

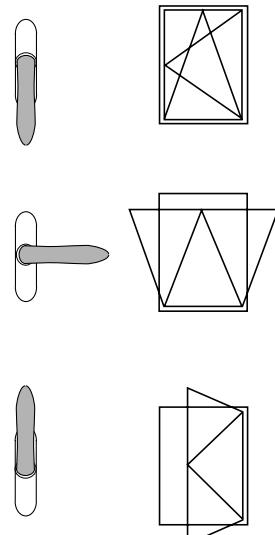

Tilt-first T/T hardware

■ ACCESSORY selection

Accessories for bottom-hung in-opening 'SF' standard T/T window and patio door

Ref.	Descriptions	1 leaf	2 leaves
KF001 or KF002	T/T hardware 90 kgs (if leaf ≤ 90 kg)	1	1
	T/T hardware 130 kgs (if leaf > 90 kg et ≤ 130 kg)	1	1
KF004	Bearing element and ECLAT	1	1
KF007 or KF008	Friction stay SF < 600 (si W ≤ 600 mm)	1	1
	Friction stay > 600 mm SF (if W ≥ 600 mm)	1	1
KF011	Mid point (si H ≥ 1300 mm)		1
KF015 or KF017	Semi-fixed embedded lock		1
	Sash bolt		1
KF020	Friction stay SF large width (if W ≥ 1300 mm)	1	1
KF033	Semi-fixed T/T hinge		1

Tilt-first opening

■ Driver system selection

1 – Select espagnolette or handle (qty: 1)

2 – Select relevant driver

Driver	1-bolt espagnolette		Keyed SF KF049	Square shaft handle KF039
	Standard KF037	Keyed KF038		
Embedded espagnolette KF036				1
Driver T/T KF028	1	1	1	

■ Additional locking point selection if leaf height **H** ≥ 1300 mm

Select additional locking point by driver

Driver Additional point	OB KF028	or	Embedded espagnolette KF036
	Option: 1 instead of locking point on driver		1 or 1
Additional point KF021 or Additional roller bolt KF048			
T/T complement large height/width KF031	1		1

■ Additional locking point selection if leaf width **W** ≥ 1300 mm

	STANDARD SF	
Additional point	1 leaf	2 leaves
KF021 or KF048	1	1
KF046	2	2

For all T/T frames:

- W>1300 in private premises
- In public places

To avoid any deliberate or accidental misuse of the fool-proof mechanism leading to the opening frame feathering, the following installations are strongly recommended **KF049** lock.

Hardware FX - FXi

Tilt-first T/T ECLAT hardware

■ ACCESSORY selection

ACCESSORIES OB fenêtre et porte-fenêtre version ECLAT

Ref.	Descriptions	2 leaves
KF001 ou KF002	T/T hardware 90 kgs (if leaf \leq 90 kg) T/T hardware 130 kgs (if leaf $>$ 90 kg and \leq 130 kg)	1 1
KF004	ECLAT/SF bearing element	1

EE014	Variable angle corner cleat for 15 x 35 chamber		90-115	HF008	Single outer frame with double groove	6,00	83-124
EE015	Variable angle corner cleat for 15 x 35 chamber		90-115	HF011	Supplementary rebate profile	6,00	128
EE156	Self-locating corner cleat size 36 x 20		90-115	HF014	Mullion profile 40 cm4	6,00	84-127
EE157	Self-locating corner cleat 29.5 x 19.4 chamber		90-115	HF015	Mullion profile 90 cm4	6,00	84-127
EE165	Cleat for top-hung opening frame 36 x 5 chamber		90-115	HF016	Mullion profile 130 cm4	6,00	84-127
EF001	Right angle anti-distortion part		115	HF017	Outer frame subframe profile	6,00	83-125
EF002	Variable angle anti-distortion part		115	HF018	Out. frame double groove conc. drainage profile	6,00	83-124
FE001	Rounded glazing bead 10 mm	6,00	100-130	HF019	Outer frame profile with inside groove	6,00	83-125
FE002	Rounded glazing bead 16 mm	6,00	100-130	HF020	Patio door opening frame, 46 mm chamber profile	6,00	84-126
FE003	Rounded glazing bead 22 mm	6,00	100-130	HF021	Out. frame inside gr. + conc. drainage profile	6,00	83-125
FE004	Rounded glazing bead 29 mm	6,00	100-130	HF022	Out. frame + architr. + conc. drainage profile	6,00	83-125
FE006	Espagnolette rod profile 14/18 groove	6,00	130	HF023	Mullion profile 83 mm	6,00	84-127
FE007	23 mm flashing profile for 80 mm lining	6,00	96-132	HF024	Façade integration outer frame profile	6,00	83-125
FE008	43 mm flashing profile for 100 mm lining	6,00	96-132	HF027	Top-hung outer frame profile with grooves	6,00	83-125
FE009	63 mm flashing profile for 120 mm lining	6,00	96-132	HF028	Top-hung opening frame profile	6,00	84-126
FE010	83 mm flashing profile for 140 mm lining	6,00	96-132	HF030	Top-hung butt-hinged reverser profile	6,00	67-128
FE011	103 mm flashing profile for 160 mm lining	6,00	96-132	HF033	Inside sill profile	6,00	87-129
FE012	23 mm sill profile for 80-100 mm lining	6,00	97-132	HF040	Outer frame profile with double groove	6,00	83-124
FE013	23 mm sill profile for 120-140 mm lining	6,00	97-132	HF054	Mullion profile 186 mm	6,00	84-128
FE014	23 mm sill profile for 160 mm lining	6,00	97-132	HF806	Opening frame profile	6,00	84-126
FE015	Inside sill profile	6,00	97-132	JF001	Central gasket		115
FE016	Architrave profile 30 mm	6,00	97-131	JF002	Dual function gasket		115
FE017	Inside sill profile 100 mm lining	6,00	97-132	JF004	Internal glazing gasket 5 mm clearance		100-115
FE026	9.7 mm square glazing bead profile	6,00	100-130	JF005	Internal glazing gasket 7 mm clearance mm		100-115
FE027	17.5 mm square glazing bead profile	6,00	100-130	JF006	Internal glazing gasket 9 mm clearance		100-116
FE028	21.7 mm square glazing bead profile	6,00	100-130	JF007	Central mullion gasket		116
FE029	29 mm square glazing bead profile	6,00	100-130	JF008	External weathering gasket		116
FE031	Large renovation architrave profile	6,00	98-131	JF009	Linking/expansion gasket		116
FE032	14 mm renovation glazing bead profile	6,00	101-130	JF010	Horizontal-pivot gasket		116
FE033	Architrave	6,00	98-131	KF001	T/T hardware 90 kgs		116
FF001	Inside rebate mullion profile	6,00	128	KF002	Hardware 130 kgs		116
FF002	Outside rebate mullion profile	6,00	128	KF003	Bearing element		116
FF008	Grooveless o.frame profile with concealed drainage	6,00	82-122	KF004	ECLAT/SF bearing element		116
FF012	O. frame profile with 1 outside groove	6,00	82-122	KF005	Friction stay < 600 mm		116
FF018	O. frame profile with 2 grooves and concealed drainage	6,00	82-122	KF006	Friction stay > 600 mm mm		116
FF019	Opening frame profile 46 mm chamber	6,00	82-123	KF007	Friction stay < 600 mm SF		116
FF021	Window and patio door opening frame profile	6,00	82-123	KF008	Friction stay > 600 mm mm SF		116
FF023	Mullion profile 22 mm chamber	6,00	82-122	KF011	Mid point		116
FF025	Central rebate profile	6,00	123	KF012	Closing mechanism with rods		116
FF032	Linking profile	6,00	86-129	KF014	Top-hung friction stay		116
FF033	Linking clamp profile	6,00	87-129	KF015	Semi-fixed embedded lock		116
FF034	Linking clamp cover profile	6,00	87-129	KF017	Sash bolt		116
FF035	Reinforced linking clamp profile	6,00	87-129	KF018	Sash bolt ECLAT		116
FF036	Reinforced linking clamp cover profile	6,00	87-129	KF019	Large T/T friction stay		116
FF038	Clip profile	6,00	87-129	KF020	Large T/T friction stay SF		116
FF042	Reverser profile for horizontal/vertical pivot	6,00	60-123	KF021	Adjustable additional locking point		116
FF055	Moulding profile	6,00	128	KF023	Latch		116
FF058	Tubular rebate renovation profile	6,00	128	KF024	Opening frame support		116
FJ189	Offset glazing bead profile	6,00	101-130	KF025	Bearing element		117
HF001	Opening frame profile 46 mm chamber standard	6,00	84-126	KF026	Top-hung friction stay		117
HF002	Opening frame profile without rebate	6,00	84-126	KF030	Driver		117
HF005	Frame section	6,00	83-124	KF031	Outsize T/T complement		117
HF006	Frame section w/o groove	6,00	83-124	KF032	Outsize T/T ECLAT complement		117
HF007	Mullion profile 76 mm	6,00	84-127	KF033	Semi-fixed T/T hinge		117
